

President:

Alec Kinslow:

Alec Kinslow, CSP is currently an HSE Manager for Mascaro Construction, serving projects in the heavy industrial and commercial industries. Prior to Mascaro, Alec worked as the Director of EHS for Giffin Interior & Fixture. He has been involved in occupational safety for nearly 10-years and has experience in manufacturing and construction. Alec received his degree in Occupational Safety from Eastern Kentucky University.

For service regarding ASSP, Alec has been involved in the WPA Chapter since 2021, having served as an Advisory Group Member for 3-years, Chapter Secretary for 2-years, and current Chapter Vice President for 2-years. Outside of the WPA Chapter, Alec has been involved in the Construction Practice Specialty Mentorship Program as a Mentor, since the beginning of 2026.

His goals for the WPA Chapter are to serve the members by providing engaging content that caters to the members, and to increase membership participation by looking at the associated practice specialty members and common interest groups. Alec also looks to continue to provide support for our three student sections through events and scholarships.

Vice President:

Trudy Hayes:

I serve as a Regional Safety Manager for Day & Zimmermann, Inc., where I oversee safety across 13 nuclear power facilities. My career has always centered on protecting people. I began as a Clinical Scientist with Forest Research Laboratories, contributing to an FDA-approved fibromyalgia study—an experience that shaped my commitment to improving lives and driving meaningful outcomes.

Over the past four years as an ASSP member, I have actively stepped into leadership roles and delivered results. I have served as Delegate, Membership Chair, and Secretary for the Western Pennsylvania Chapter, focusing on strengthening member engagement and building a more connected professional community. Through my work with ASSP WISE, I have prioritized mentorship and development, earning the 2022 Kristin Herman Mentoring Advocacy Excellence Award and achieving Community Recognition Award – Platinum Level for sustained service and impact. My other areas of interest include BISE, Emerging Professionals in OSH, and Construction.

I hold a B.A. in Computer Information and System Science from the University of Washington DC and an A.A. in Business Management from the University of Phoenix. My dedication to service extends beyond ASSP, such as the National

Safety Council and I am honored to have received U.S. Congressional Record recognition for my contributions to the community.

As Vice President, my focus will be on delivering measurable value to our members and strengthening the long-term success of our chapter. My goals include increasing member engagement through relevant, high-impact programming; expanding mentorship opportunities to develop the next generation of safety professionals; and improving member retention by ensuring every member finds value and connection within our chapter. I will work to strengthen partnerships with industry and community organizations, elevate professional development opportunities, and create more accessible pathways for members to get involved and lead.

I am committed to building a chapter that is engaged, growing, and recognized for its impact—where members feel supported, connected, and empowered to advance both their careers and the safety profession.

Jeremy Dixon

Jeremy Dixon, CSP PMP

A member of ASSP(ASSE) since 2005 with a Fire Science AAS, Safety Science BS and Masters of Adult and Community Education MA. Background in Energy, Heavy Industry, Military Industrial and Staffing with an emphasis on education and project management. In addition to fulltime work, has been an Emergency First Responder (Fire, EMS, Hazmat, EMA and Police) for more than 30 years with multiple leadership roles on both the executive and line side.

I'm looking forward to continuing the work of increasing engagement to our membership and working to make the Chapter responsive to what are members want and need.

Secretary:

Jocelyn Milby:

Jocelyn Milby has a strong background in injury management, regulatory compliance, and safety culture advancement from her 10+ years of Safety experience.

Previously, Jocelyn held an advisory board position within the Western PA ASSP chapter, where she assisted in the planning of the PDC for three years, this last year assisting as the secretary of the planning meetings. She assisted the executive committee in making decisions on monthly events and updated on quarterly national meetings. She holds a Master's in Safety Sciences, a Bachelor's in

Dietetics, both from Indiana University of Pennsylvania and is a Certified Safety Professional.

Jocelyn is committed to working together as a team with the executive committee to foster continuous improvement within the chapter. Ensuring that the Western PA ASSP members receive timely communications and professional development opportunities. Outside of work, she enjoys hiking and fly fishing with her husband, Jonah, and their two German Shorthaired Pointers, Loomis and Hank.

Advisory Group Members:

Josh Muth:

Josh Muth is a safety professional with 19 years of experience and a Master's Degree in Safety Science from Indiana University of Pennsylvania. As an EH&S Supervisor at Williams, he leads safety teams across Ohio and West Virginia, where he has helped reduce high-severity incidents and strengthen leading indicators of safety performance in the field. Josh is committed to developing resilient safety programs, mentoring safety professionals, and advancing strategic, data-driven improvement. As a candidate for re-election to the Western PA ASSP Advisory Board, he aims to expand networking opportunities and increase site visits so members can see how different organizations manage safety and bring those best practices back to their own workplaces.

Angelo Miklos:

Angelo Miklos is the Director of Environmental, Health & Safety at Duquesne Light Company (DLC) in Pittsburgh, PA, where he leads enterprise-wide EHS strategy, risk management, organizational development, and compliance assurance across all business operations. He is responsible for shaping DLC's safety culture, strengthening operational discipline, and ensuring regulatory excellence in a complex, high-risk utility environment.

Before joining DLC, Angelo spent nearly a decade at PPG Industries in progressive leadership roles, including Manager of Corporate Safety Programs and Global EHS Director for multiple business units such as Science & Technology, Specialty Materials, and Automotive Refinish. In these roles, he oversaw regulatory compliance, developed enterprise programs, and advanced the maturity of PPG's safety management systems.

Prior to PPG, Angelo served as the North America Region EHS Leader for Westinghouse Nuclear, where he designed and led EHS programs supporting manufacturing, field service, and construction operations across the nuclear energy sector. Earlier in his career, he held EHS leadership roles in semiconductor, biotechnology, construction, and insurance risk services, giving him a uniquely broad perspective across diverse high-hazard industries.

Angelo graduated magna cum laude from Indiana University of Pennsylvania with a BS in Safety Sciences. He is a Certified Safety Professional (CSP), a Construction Health and Safety Technician (CHST), and holds the Associate in Risk Management (ARM) designation. He is an active member of the American Society of Safety Professionals (ASSP) and volunteers for The McElhattan Foundation, partnering with the National Safety Council on the "Work to Zero" initiative, aiming to eliminate workplace fatalities by 2050 through technology.

Fran Sehn:

FxS Risk and Safety Consulting is a consultancy focused on safety and risk-based solutions using management systems to assist organizations to reduce risk and the cost of risk. In the past five years he has focused on assisting organizations in ISO 45001 projects for Occupational Health and Safety Management Systems. Prior to joining Willis Towers Watson in 1999, Fran was the Manager of Safety for Washington Steel Corporation for over eight years where he was responsible for safety, industrial hygiene, workers' compensation and security for the specialty steel maker. Responsibilities included developing policies and procedures, training, incident investigations, hazard identification, and auditing at the site. He was instrumental in reducing the cost of risk at the 800-employee steel company using innovative programs for training and injury management.

Fran's career started in 1973 as a loss control consultant, and he spent 18 years with several major insurance carriers. .

For the past five years he has been an Adjunct Instructor in the University of Pittsburgh Swanson School of Engineering where he teaches "Intro to Safety Engineering" to both senior and master's degree students.

In 2019 he received the ASSP Council of Practices and Standards Safety Professional of the Year Award

He graduated from Point Park University with a degree in Electronics Engineering Technology, and he holds a Masters Degree in Safety Science for Indiana University of Pennsylvania.

Dan Wible:

Daniel Wible, MS, CSP, is a safety leader with 18 years of experience driving regulatory compliance, operational risk reduction, and safety culture transformation across oil and gas operations, concrete block manufacturing, Portland cement production, and trucking. As Safety Director for Snyder Associated Companies, he has modernized training programs, implemented innovative safety systems, and advanced risk management practices across multiple sites. Daniel holds both a B.S. and M.S. in Safety Sciences from IUP and maintains certifications as a CSP, MSHA

instructor, and First Aid/CPR instructor. A committed member of ASSP and the ASSP Western PA Advisory Group, he is dedicated to strengthening chapter engagement and advancing professional excellence through continued service as an advisory group member.

Leif Lindgren:

Hello everyone! My name is Leif Lindgren. I have safety certificates GSP and ASHM. I like being involved with the WPA chapter! I am interested in networking and meeting safety professionals in the Pittsburgh area. My goal is to help grow the chapter. Helping the executive committee by helping event planning and organizing engaging safety events. I appreciate the opportunity. Thank you so much!

David Johnson:

David Johnson, CSP, OHST is an Environmental, Health, and Safety leader with over 20 years of experience supporting manufacturing, logistics, engineering, and field service operations. He currently serves as Director of Environmental, Health & Safety for Komatsu, where he leads EHS strategy and continuous improvement efforts across U.S. operations within a global organization.

David's career has been grounded in practical, people-centered safety leadership. His experience includes implementing ISO 45001 management system strategies, applying human and organizational performance (HOP) principles, developing competency-based training and mentoring programs, and partnering with operations leaders to reduce risk while improving business performance. He has supported VPP Star sites, led cross-functional audit teams, and driven regulatory compliance across OSHA, MSHA, and environmental programs.

David holds a Master of Science in Safety Management from West Virginia University and a Bachelor of Science in Biology from The Pennsylvania State University. He is a Certified Safety Professional (CSP) and Occupational Hygiene and Safety Technician (OHST).

As a candidate for the Western Pennsylvania Chapter ASSP Advisory Board, David is interested in supporting member engagement, professional development, and mentorship, particularly for early-career safety professionals and those transitioning into leadership roles. He values forums that encourage practical knowledge sharing, open dialogue, and connection across industries.

If elected, David's goals for the chapter include:

- Strengthening member involvement and attendance through relevant, practical programming
- Supporting mentorship and leadership development within the chapter
- Encouraging collaboration between practitioners, leaders, students, and emerging professionals

- Helping the chapter remain a trusted local resource for advancing the safety profession in Western Pennsylvania

David is committed to serving the chapter with integrity, collaboration, and a focus on continuous improvement.

Cody Bergad:

Cody Bergad, MS, CSP is an Environmental, Health, and Safety leader with more than a decade of experience supporting complex manufacturing, field service, and energy infrastructure operations across the United States and globally. He currently serves as an EHS Business Regional Manager with Eaton Corporation, where he provides business and multi-site EHS leadership, drives enterprise initiatives, and partners with site and business leaders to proactively manage risk and enable continuous improvement.

Cody holds both a Bachelor of Science and Master of Science in Safety Sciences from the Indiana University of Pennsylvania and maintains the Certified Safety Professional (CSP) credential. He has led EHS programs across diverse environments including foundries, electrical field services, heavy manufacturing, and multi-site business units, with a focus on electrical safety, serious injury and fatality (SIF) prevention, and management system effectiveness.

An active member of the ASSP, Cody is passionate about advancing the profession through practical knowledge sharing and leadership development. Building upon the great progress of the chapter, if elected, his goals are to further strengthen member value and foster a collaborative environment that supports safety professionals at every stage of their careers. He is committed to serving the chapter with integrity, energy, and a practical, member-focused approach.
